### Love

The first duty of "love" is to listen .....

To listen to another is to enhance his or her sense of self-worth.

Listening is a magnetic and strange force. Friends who listen to us are the ones we move toward; when we are listened to, it makes us unfold and expand.

Becoming an attentive and empathetic listener is possible for all of us. We do not have to be wealthy, scholarly, or talented to give this gift.

- *Don't be afraid* to take chances. That's how we learn to be brave.

#### STRENGTH

"Strength does not come from winning. Your struggles develop your strengths.

When you go through hardships and decide not to surrender, that is strength"
