Ok, winter is over, summer is here—time for some fun—camping, NASCAR Races, tailgating, and R-Ving. Need a generator?

One that's quiet, and very dependable? We have them! **HONDA** the only name when it comes to portable power. These new generators feature Inverter Technology. This means stable, clean power in a smaller, lighter package. You can even operate the most sensitive electronics without fear of interruption. Inverter technology is available on seven Honda generator models. Look for the "i" after the model number.

The EU Series generators range from 1,000 to 6,500 watts, Honda EU Generators are super quiet, highly fuel efficient (we all need that) and ideal for recreational and home back-up applications.

The full line of Honda generators are available at Do-Cut —on sale now!
