HAPPY ST. PATRICK'S DAY!

MARCH, 2007
www.docut.com

It is with very heavy hearts that we mourn the passing of not only the founder of Do-Cut Sales & Service, Inc., but our father and friend.

Tony "Do-Cut" Terzigni was born in Russellton, PA on July 1, 1921 to a large family of 8 children. An entrapaneur the age of 8 he rented a pony and wagon and sold fruits and vegetables up and down the streets of row houses in Baltimore, MD., bringing the money home. Tony served in WWII in the Air Force as an airplane mechanic. He moved

to Warren, OH in 1947. When he needed his hand mower repaired and was told he would have to wait 3 months, he fixed it himself and soon after Do-Cut was born. He started by sharpening hand and circular saws and doing mower repairs. Equipment was left on consignment and soon he was selling equipment and the business was growing. The Warren store was built in 1952 and the Canfield store in 1979.

Tony received numerous awards from the lawn and garden equipment industry and was an advisor to General Electric on their development of an electric tractor.

Tony was a very kind and generous man who taught us all that the customer comes first and that good service is unparalleled.

He will be sadly missed by all who knew him.

EQUIPMENT

WHY DO WE CELEBRATE ST. PATRICK'S DAY?

St. Patrick (Maewyn) lived in around 400 AD in Roman Britian. He was captured and held as a slave for 8 years. At the age of 22, legend has it that an angel directed him to spend 12 years in a monastery near Paris, France. It was then that he found God and prayed unceasingly. He was appointed second bishop to Ireland where his mission lasted 30 years.

He was know to raise people from the dead. The USA celebrated its first St. Patrick's day in Boston, in 1737. We have the shamrock because it helps explain the Holy Trinity and we wear green because he was born and died just
